WORLD MENTAL HEALTH DAY 2018 | WEDNESDAY, 10 OCTOBER

Adolescence and the early years of adulthood are a time of life when many changes occur, for example changing schools, leaving home and starting university or a new job. For many, these are exciting times. They can also be times of stress and apprehension, however. So by taking this insight, the Student Council of the Shri Guru Gobind Singhji Institute of Engineering and Technology organised The Mental Health Awareness Talk for the first year student on Tuesday, 16th October 18.

On this occasion, the chief guests who were invited are Dr. D. Joshi and Dr. D. Inchekar. Dr. Joshi delivered a speech on what problems students are facing in between age 17-29. They show the symptoms and gives some solutions regarding it. After that Dr. Inchekar gives guideline related to YOGA. They told us that how our culture is followed by AYURVEDA since ancient times and teach us how to take care of our physical health, mental health and lastly our social behaviour.

In such a way, it played a key role in lighting up the overall well being of all the students. Thus the world mental health week was celebrated by creating an awareness among all.

-Shivani Ghumade (F.Y.ExTC)

When someone is diagnosed with a mental health disorder such as depression and anxiety, first line treatments usually include psychological therapies and medication. But that's not always included are the changeable lifestyle factors that influence our mental health. Even those who suffer from stress may be looking for ways to improve their mental health.

In accordance with the goal of World Mental Health Day celebrated on October 10th that is to raise mental health awareness, here are some lifestyle changes beneficial in maintaining your mental health.

1. Social connection-

Phone calls and social networks have their place, but nothing can beat the stress-busting, mood-boosting power of quality face-to-face time with other people.

A good listener will listen to the feelings behind your words, and won't interrupt, judge, or criticize you. If you don't feel that you have anyone to turn to, there are good ways to build new friendships and improve your support network. In the meantime, there is still a great benefit to interact face-to-face with acquaintances or people you encounter during the day, such as your neighbours, people in the checkout line or on the bus.

2. Managing Stress

Stress takes a heavy toll on mental and emotional health, so it's important to keep it under control. While not all stressors can be avoided, stress management strategies can help you bring things back into balance.

Do things for no other reason than that it feels good to do them. Go to a funny movie, take a walk on the beach, listen to music, read a good book, or talk to a friend.

Yoga, mindfulness meditation, deep breathing, or progressive muscle relaxation can put the brakes on stress and bring your mind and body back into a state of balance.

3. Brain-healthy diet-

Unless you've tried to change your diet in the past, you may not be aware of just how much what you eat—and don't eat—affects the way you think and feel. An unhealthy diet can take a toll on your brain and mood, disrupt your sleep, sap your energy, and weaken your immune system. Conversely, switching to a wholesome diet, low in sugar and rich in healthy fats, can give you more energy, improve your sleep and mood, and help you to look and feel your best.

4. Meaning and purpose-

Everyone derives meaning and purpose in different ways that involve doing things that benefit others, as well as yourself. You may think of it as a way to feel needed, feel good about yourself, a purpose that drives you on, or simply a reason to get out of bed in the morning.

In biological terms, finding meaning and purpose is essential to brain health as it can help generate new cells and create new neural pathways in the brain. It can also strengthen your immune system, alleviate pain, relieve stress, and keep you motivated to pursue the other steps to better mental and emotional health. However, you derive meaning and purpose in life, it's important to do those things every day.

THE DIRECTOR'S MESSAGE :

It is with great pride and pleasure I am writing this message for the newsletter of the theme पूर्वसंग-अस्मिताचा शब्दप्रवास of the institute. First message I wish to concentrate on Employ-ability.

India has tremendous potential to provide skilled manpower for various industry segments. The Central Government (GoI) and the State Government (GoM) are taking several initiatives like Make in India, Start-up India and Stand-up India, in addition to various other initiatives which aims of adding employable youth to the workforce sought by various sectors. AICTE also has identified "National Employment Enhancement Mission (NEEM)". One of the objective of NEEM is to use concept of "on the job practical training" targeting enhancement of employ-ability among individuals who are pursuing graduation. This will ensure a win-win situation for the Institute and Industry. Industry gets highly focused and passionate employees and will notice an increase in productivity with quality because of a motivated workforce. The Institute will be able to satiate the hunger for knowledge in the young fledgling minds. A jump-starting of career means students are either ready to be absorbed in Industry or becoming entrepreneur with starting own company. Equipped with comprehensive skill training, the students will be assured of achieving their goals. Industry 4.0 (Covers wide range of topics including related to particular branch or multidisciplinary. It is the current trend of automation and data exchange in manufacturing technologies. It includes cyber-physical systems powered by artificial intelligence, machine learning, computer vision, the Internet of things, cloud computing, etc., to create Smart Factories. Within 'modular' and 'structured' smart factories, cyber-physical systems monitor physical processes, create a virtual copy of the physical world and make decentralised decisions.

There are four design principles in Industry 4.0: Interoperability, Information transparency, Technical assistance, and Decentralised decisions. Preparing our students for this "The Next Big Change since the First Industrial Revolution" is key to employ-ability and entrepreneurship. In an article published in February 2016 author says that Industry 4.0 may have a beneficial effects for emerging economies such as India. This article can be found here: <https://www.thequint.com/news/business/india-can-gain-by-leapfrogging-into-fourth-industrial-revolution>. In fact many commentators are talking about 'The Fifth Industrial Revolution' if India succeeds in the current scenario taking advantage of demography of manpower and initiatives by the Governments. Please see one such article here: https://www.huffingtonpost.com/bhaskar-chakravorti/the-next-big-thing-a-fift_b_9185692.html

Apart from these, to enhance employ-ability, students must have knowledge and skills about

1. Data and Business Analytics (Big Data)
2. Professional Communication (Verbal, written, and behavioural)
3. Accounting and Finance
4. Marketing and Management
5. Foreign Language Skills (German, Japanese, Mandarin - so that students can get jobs based on these languages)
6. How to Use Most Commonly Used Tools like MS Word, MS Excel, Google Drive, Google Sheet, Google Doc, Gmail, Google Calendar, etc., effectively?
7. GATE (Many Govt. sector companies employ directly through GATE score)
8. Building Entrepreneurship Qualities
9. How to Start a Start-up? And How To Make It Sustainable?
10. Scaling up the Organisation

In addition to these, various specialised courses as suggested by experts (from academics and Industry) for domain skills and like skills may be included.

Every employer/start up needs an all-rounder who should have the above skills. However in order to succeed in life you must have a passion, ability to work hard, sincerity and honesty to yourself. There are many distractions to students, but you should not think about these.

I wish the students to be active during their student life. Learning can only be maximised by doing things, concentrating on concepts, experimenting the concepts, exploring the ideas, etc. The more mistakes you make the more you learn. The mistakes done during studentship (while learning) are not harmful.

Experience the Joy of learning, problem solving. Spend maximum time in campus, utilise the facilities (library, internet, sports, engineering exploration lab, innovation lab, Computer Facilities etc.). Involve yourself in learning.

I wish the readers a very happy and prosperous Diwali and Happy new Year.

Inputs from Dr. S. S. Gajre, Dean Industry Liaising are thankfully acknowledged

Dr. Y V Joshi,
Director,
SGGS IE&T, Nanded.

EXPERT TALK ON SEX EDUCATION:

4th April, 2018

'Sex Education', a topic which is always ignored since decades in our country. If its a part of life than why to feel so shy about it? To discuss this issue and to create awareness in the minds of college guys Team Drishti 2K18 organised a guest lecture on 'Need for Sex Education' on 4 April 2018. A renounced personality Dr. Rajan B Bhonsle, a Sexologist in Byculla, Mumbai was invited to share his thoughts. While expressing his ideas Dr. Bhonsale said that value-based, age-appropriate and culture-specific sex education is the only way to address issues like sexual molestation in childhood, the turbulence of attaining puberty, the trauma of an unwanted pregnancy, the horror of contracting a sexually transmitted disease or the psychological impact of pornography.

Parents and teachers hesitate to provide sex education to children who are being pounded with sexual messages everywhere they look — from newspapers, magazines, television and films, to public toilet walls. Their young minds are more vulnerable to these corrupt messages as they are rarely prepared with healthy and legitimate information about sex and sexuality. This interferes with their development towards mature and healthy adulthood.

Counselling each and every individual in society at right age will lead to a better next generation.

महात्मा गांधी : तुमच्या शब्दात

कालच्या "द हिंदू" या वर्तमान पत्रात "लोबल हंगर इंडेक्स" प्रसिद्ध व्हावा आणि त्यात भारताचा क्रमांक बघावा तो १६१ ते पण १७९ देशांमधून हृदयाचा ठोक तेव्हा चुकावा जेव्हा त्यातील एक ओळ वाचाची असाऱ्या भारतामध्ये दर ५ मुलामध्ये एक मुलगा भूकबीनी ने प्रस्तु असतो. तलपाणीमध्ये मस्तकात कारण जगातील चार क्रमांकाची अर्धसत्ता एवढा साथा प्रश्न सोडवू शकत नाही. आणि आम्ही स्वप्र बघावे ते स्मार्ट सिटी चे आणि डिजिटल इंडिया चे अरे पण! जे डिजिटल व्हायला निघालेत अन्यांनी दान वेळेस अन्न न मिळालेल्या गरिबांचा विचार करू नये. यात दुखाची बाब अशी की हा क्रमाक मागच्या वर्षीच्या तुलनेने खुप खालावलेला होता. एकाबजूने भारतासारख्या देशात अर्थिक महासत्ता होण्याची कास धरावी आणि दुसरीकडे या हृदयद्रावक घटना वर्तमानप्रतात छापाच्या . मग काय उपयोग त्या महासत्ता जेथे गरिबांना राहायला घर नाही! खायला अन्न नाही . पण श्रीमतींका का विचार करावा गरिबांचा त्यांचा विचार करून, फायदा बघून ठांबी मोकळं द्वावं अंगी सध्याची विचारसरणी म्हणून डोळे लावावेत आणि अचानक एखाद युग अठवाव. ज्यात इंग्लंड मध्ये भारतीय न्यायाच्या आणि संविधानाचा चपखल अभ्यास केलेल्या नेत्याच, तसेच स्वतःचे वडील भारताच्या गुजरात मधील काठेवाड प्रेदेशाचे दीवांग असावे, रक्काने बनिया (व्यापारी) तर डोक्याने वा विचाराने (न्यायाच्या स्विकित्सक असलेल्या माणसांने हातात त्याच्या उंचीएवढी काठी घेऊन, अंगात वकील असून सुट बुट न घालता गुड्हयापर्यंत जाईल एवढी धोतराची घडी घालावी आणि पायात जिन्नस लोकांसारखी काळे, चामडी बुट न घालता काही चपपल घालुन हजारी लाखांचा लोकाचा लोंडा घेऊन स्वातंत्र प्रांतीसाठी कुकं करावा. साठावा तो चाप्पा, केस नसलेला म्हातारासा पण चैतन्याचे तेज असलेला "महात्मा मोहनदास करमचंद गांधी". मग आठवावा त्यांचा प्रताप आणि ते गांधीयुग! असाच गांधींचा विचार करताना जगतातील विख्यात अलबर्ट आईनस्टार्टीनचे वाक्य, "Generation to come will be scarce about knowing such awn and blood was arrived at earth once".

खोरखरच आत्मापण विश्वास न बसावा की, असा मानुस पुरुषी तलावर येऊन गेला म्हणुन. मोहिदास करमचंद गांधींचा जन्म गुजरात मधील पारंबंदर येथे झाला. त्यांचे वडील दिवांग आणि आई साधारण व्यक्ती होती. लहान पणापासून शिक्षणात पारंगत म्हणूनच व्याच्या एकोणी वर्षी इंग्लंड ला जाऊन उच्च शिक्षण घेण्याचा निर्णय, विषय न्यायाच्यास्त्र निगडीत भारत म्हणून गांधींना त्याचा उपयोग झाला. उच्चशिक्षण पुराण केल्यानंतर गांधींनी भारतात येण्या आधी त्याचा सहकारी अद्वल यांच्या काही न्यायालयीन कामासाठी आफिकेला ज्ञाप्याचा निर्णय घेतला. आफिकेत गेल्यानंतर त्यांनी तेथील भारतीय रहिवास्यांच्या हाल अपेक्षा निखारल्या आणि काही काळ तेंव्हे थांबुन त्यांना समानतेचा हवक मिळजून देण्यासाठी सरसावले. भारतीय म्हणून फुकते आणि साधनसंपत्ती ही एकतर्की होऊन त्यांना वार्डीत परिणाम गरीब जनतेचा आणि खालच्या स्वरातील लोकाना भोगावे लागतील असा गांधी चा तावच्वद global hunger indeo तयार करण्याचा संस्थेला आला. असावा आणि चालू भारतातील परिस्थिती कशी अनुकूल असेल याची विचार मनात यावा भांडवलशाही वाराला नष न करता त्याचा उपयोग खालच्या वर्गातील लोकांना करण्यासाठी करावा हा गांधीवात याची गरज भारताचा असावी आहेच हे जाणून सोसिल कॉर्पोरेट टॅक्स सांकल्पना याचा गांधीवात चपखलपणे लागू पडतो

"This is Everything for Everyone , But nothing for Anyone 's greed "

- M.K. Gandhi

तसेच भारत श्रेणीमध्ये आणि भारतीयांच्या हृदयावर राज्य करूनही गांधी ना कधी सर्वेचा मोह झाला नाही आणि कधी सत्य व अहिंसा यासोबत काढीचा तोलमोल केला नाही मग ते चोरीचोऱ्या हृत्याकांड नंतर केलेली कायदेभंग चळवळ असो व 1930 ला सोडलेली कांग्रेस असो.

लोकाचा विकास करायचा असेल तर लोकांमध्येच राहून होतो आणि तो करण्यासाठी लोकांना पुढे करावे लागते हे गांधीतवव.

"Leaders are not those who leader but those who make leader's"

"M-han-nch gāndī nंतर विनोबा भावे आणि जे, पी. नारायण हे नेते गांधीवादी विचारसरणी घेऊन पुढे सरसावली.

गांधींच्या विचारांची भारताला पुरीं जेवढी गरर होती तेवढीच आजसुद्धा आहे मग ते गांधीवादी तत्व भारताच्या संविधानातील भाग क्र. 4-A मधील Director principle of state policy मधील कलम क्र. 40(पंचायत राज-ची घटनादुर्स्ती 42च्या क्रमांकाची 1992मध्ये झालेली) कलम क्र. 43, कलम क्र. 46 ते आजच्या भारताला पडलेली स्वच्छ भारताची स्वप्र आणि त्याचासाठी घेतलेला म.ग.गांधी चष्याचा आधार आणि त्याचासाठी घेतलेला त्याचा काढीचा आधार अशा अनेक स्वरातून भारताच्या तळागाळातील लोकांचा विकास ते भारताला आधिक महासत्ता बनवण्याचे स्वप्र प्रत्यक्षात उतरवायच असेल तर तो मनात असावा लागेल आणि त्यांची तत्वे दैनंदिन जीवनात प्रत्येकाला विकसित करून पाळावी लागतील. मग परत येईल ते "गांधीयूग".....!

संवेदनशील विसर्जन सोहळा

संवेदना खरच किती नाजूक शब्द आहे. व्यक्तीमधली सांवेदनशीलता जागी झाली की नवकीच आपल्या आजूबाजूच्या परिसरात त्याचा फायदा होतो समाजात कायदा होतो. अरीच सांवेदनशीलता मरी बाळांन आपल्या महाविद्यालयातील द्वितीय वर्ष अभियांत्रिकीच्या काही विद्यार्थ्यांनी एक उपकरण राबविला. गणेश विसर्जन सोहळ्यामध्ये म्हणजेच 23 सप्टेंबर ह्या दिवशी सर्व महाविद्यालयाचीन परिसरात जो काही कचरा झाला होता. मिरावणुकी च्या मागे राहन दिसेल तो कचरा अगदी आपल्या हाताने उचलत महाविद्यालयातील रस्त्यावरचा सर्व कचरा ह्या विद्यार्थ्यांनी उचलला व महाविद्यालयाचा परिसर स्वच्छ केला. हा उपकरण कोणावर ही लादला नसतांना परव्येकाने अगदी "कर्मचारी वाधिकारस्ते" ह्या कर्तव्यशीलत भावनेने ही मोहीम राबविली व पार पाडली. शरीराच्या विसर्जन जल्लोषात अगदी हसत खेळत हा उपकरण पार पडला. विद्यार्थ्यांचा हा सर्व कारभार पाहून गणेशात्पवाचे आयोजक म्हणजे अखेर वर्ष अभियांत्रिकीच्या विद्यार्थ्यांनी आणि संस्थेचे संचालक डॉ. जोशी सरानी सर्व विद्यार्थ्यांचे कौतुक केले.

आपी केले मग सांगितले ह्या उक्तीप्रमाणे जे कार्य ह्या सर्व विद्यार्थ्यांनी पार पाडले त्या बदल खरच असे विद्यार्थी ह्या विद्यालयाला मिळाले हाचा सार्थ अभिमान वाटतो!!!
