Chakravyuh Let the battle begin!!!!

30 Dec 2018

"Learning gives creativity, creativity leads to thinking, thinking provides knowledge, knowledge makes us great. Quiz competitions are always interesting and informative which brings excitement among the students and also makes them aware of current affairs. Team DRISHTI in collaboration with UPSC chapter successfully conducted a quiz competition "CHAKRAVYUH: Let the battle begin!!!" for the students of our institute.

The competition started with the introduction of teams. All the rules and regulations were explained at the beginning. It was an interesting fourround competition including objective questions in the first round followed by the science bee in the second round. The third round was a rapidfire in which participants were provided with buzzers. The last round was a surprise round for which only three teams were shortlisted. In this round, group-discussion was conducted and topics were disclosed on the spot. The questions put forth to the teams were intriguing, exciting and made the audience go 'Aah!' and clap when the teams answered correctly. It was very informative and very knowledge enriching competition for the participants.

ONE DAY SYMPOSIUM FOR MATHEMATICS BY BHASKARACHARYA MATHS CLUB

29 Dec 2018

"The oldest club of our institute, "BHASKARACHARYA MATHS CLUB", organized a one-day symposium on mathematics in college-campus. The lectures were as follows:

 a) LINEAR ALGEBRA by Dr. Ananthanarayan Harihararan(Prof. of Mathematics, IIT Bombay)

b) STATISTICS AND PROBABILITY by Dr. Vivek Vijay(Asst.Prof. of mathematics, IIT Jodhpur)

Relation of Mathematics with real world!!

Let's speak about statistic and probability!

It's one of the most important topic of mathematics, you may think that it's all about chances. But probability increases human work efficiency by omitting the most of useless things. Speaking about a real life incident, Air France 447 flight was crashed on 1 June 2009, after researching for 2 years by a big team they are unable to find the black box(where all the recording data are stored) of the flight over the huge ocean! But a small team of statistician's used Bayes theorem to find the exact location of that box by just some data analysis(in mathematical word statistics). This is what mathematics can do! It can solve problems by seating on your own places. Don't you feel that how useful this 12th class Bayes theorem could be! It's also used in Stock market to gain maximum profit.

अस बोलतात मनातलं सर्वच बोलून सांगता येत नाही म्हणुनच त्यासाठी लिहीत आहे.आजच्या पिढीची आई कधी mummy, mom झाली समजलेच नाही. अंधार पडायच्या आधी घरी ये गं, प्रवास करत असताना care घेत जा, मजा मस्ती पुरे आता जरा अभ्यास कराही अशी काही आईची ठरलेली वाक्य. जन्म घेण्याच्या आधीपासून आपल्याला समजणारी एकच व्यक्ती असते ती म्हणजे आपली आई.आई बोलता येत नव्हता तेव्हापासून आपलं नातं आहे.बोलायला लागल्यावरं पहिला शब्दही आपण "आईच" उच्चारतो. छोट्या छोट्या शंका,उत्सुकता, प्रश्न सर्व काही आईला सांगायची सवय लागते पण नंतर आपण मोठे होतो आणि तिच्या अपेक्षा पण मोठ्या होत जातात. आपल्याला आयुष्यात सर्वात जास्त जाणणारी अशी एकच व्यक्ती असते ती म्हणजे आई कारण एका लहान मुलाला पण माहिती असतं माया करणारी आणि 24 तास समोर असणारी ही एकच व्यक्ती दिसते. तमच्या आणि माझ्या आई मध्ये फारसा फरक नाही,लवकर उठवण्यापासून राञी मी झोपली की नाही हे सतत बघणारी माझी आई,राञी जर मी झोपी गेले तर चालू असलेली light बंद करायला,मी कमी करुन ठेवलेल्या पंख्याचा वेग वाढवायला जेणे करुन मला गरमी होऊ नये याची care घेणारी माझी आई.ती घरातलं सर्व आवरून बाहेरचे पण कामं करते. ती कोणत्याच कामाला कधी नाही बोलत नाही.सर्व गोष्ट्री करण्याची तिची तयारी असते. नेहमीच.तिच्यातली चिकाटी आणि एकाग्रता बघून मलाच लाज वाटते कधी कधी..... माझ्या आईने मला काही गोष्टी आवर्जून शिकवल्या आहेत आणि कदाचित आज मी जी काही व्यक्ती आहे ती तिच्याच मूले आहे.तर त्या गोष्टी अशा.... कधीच कोणाचे वाईट चिंतू नये. -खर बोलायला कधीच घाबरु नये. -आपल्यामाणसां बद्दल कधीच तिसर्या व्यक्तीकडे बोल नये कारण जेव्हा गरज असते तेव्हा आपलंच माणुस आपल्यासाठी धावून येतं. -कोणाचा विश्वास कधी तोड़ नये. तिने कधी ही माझ्या झालेल्या चुकांवर पांघरुन घातलं नाही. गरज होती तिथे ती मला चारचौघांत सुद्धा ओरडली आहे माझी आई.ती एकदम मिश्कील आहे कारण अभ्यास किती झाला ह्यापासून boyfriend आहे का?इथपर्यंत बोलते ती माझ्यासोबत आणि म्हणूणच मला तिच्यापासून काही लपवायची गरज पडत नाही!!तिने खुप काही गोष्टी बघितल्या आहेत असं बोलण्यापेक्षा तिने त्या अनुभवल्या आहेत हे बोलणे उचित ठरेल.तिने खूप काही गमवल्याच दुःख पण पाहिलं आहे आणि म्हातारपणात तिच्या वडीलांना गंभीर आजारातून बाहेर पडण्याच सुख सुद्धा.मी तिच्यासारखा संयम गाठणा कठीण आहे पण प्रयत्न चालू आहे.माझ्या आयुष्यात मोजक्या पण हृद्याला भिंडणार्या स्त्रियांपैंकी ती एक आहे.

Let's Question Ourselves

Today...

Don't you ever feel like criticizing some of the things that are going on in our college! Today let's talk about those things which are going on in the college, we all know that those are inappropriate but no one really talks about these things!

- 1) The non-technical stuff-Pursuing a technical degree, don't you ever feel like to do more of technical stuff than what you do generally in college? We have good laboratory infrastructure and technical clubs for your technical development. But, how many of you have ever visited them?
- 2) Sitting in ADMIN-

The admin area is allowed for studying because may your hostel or may your home can't provide the environment that you want. But what actually is happening in admin? There is nothing bad in a couple study but just question yourself, what are your intentions behind those books and laptop? Do you really sit in admin with the aim of study or anything else is going on in your mind?

The pressure created by the seniors on volunteers-

On the name of events, the coordinators are sometimes behaving inhuman, giving numerous overloading tasks! All the students are there to learn something but did you really learn or something else was put in your mind?

4) Why we are disappointed with our institution??

Do you think that the thoughts of

criticizing come in a student's mind because of some activities done by the organisation? Let's be practical.

Just question yourself today that all the things that I pointed out in the article are right or wrong! Just one thing while you introspect yourself be honest with you. If we can change our way of seeing, living and applying then we can convert our institution into a way better place. A place where no one criticizes, a place where no one is disappointed, a place of good opportunities, a place that you never gonna forget! It's on us that what we

decide today!!!!

We all are finding a purpose in our lives. A reason to live. A painter finds his reason in the beauty of the colours, magician finds his reason in his magic, a mother finds her reason in her family, some people find their reason in the people they love. But I find my reason in the beauty of a book. Books are like webs. Once you enter in it you get stuck into it. People say that our thoughts are like stars we can't comprehend them but a writer presents a whole story of his thoughts. And that's the beauty of a book. When you enter a book, you are entering in the mind of someone else. You feel like the writer is speaking directly to you. You laugh with the characters, you sob for their loss, you cherish their moments you, silently pray for their happiness, its like you are inside the book. You even the picture the characters inside your head. You can feel it. A good book has no end. Writers are the greatest inventions of humans. If you are sad, pick a good book and start reading it or I'll say start feeling it. A good book is a remedy to all the pain. Every book you read will give you something worthy to remember. Some books will help you find the purpose of life, some will make you happy, some will make you sad and some will make you think deeper. If you are a good reader you will never walk alone. You will have a whole people's life inside your head. You can enter a new world anytime. No matter how many times the world tries to silence you, you have a book waiting for you to enlighten your mood.

Here's a line from one of a beautiful book,

"Life is to be lived, not controlled; and humanity is won by continuing to play in face of certain defeat."

By Ralph Elison Happy reading.
